MEMORANDUM FOR: John Parangosky

SUBJECT : Distribution of Common  
Contract Costs

1. There have been several discussions regarding our obligation of OXCART, KEDLOCK, [redacted] budgeted funds against specific contracts and the means of expensing invoiced claims against these obligations.

2. Unless you or the persons itemized in distribution have strong reasons to the contrary, I find it unacceptable to attempt a specific cost distribution against these projects and accordingly the moneys should be obligated on a percentage or a proportional basis and invoiced expenses distributed according to the same ratio.
